### **Abstract**

This research described the implementation of teaching translation by using comment exercise method for the fourth semester students of Teacher Training and Education Faculty in Veteran Bangun Nusantara University of Sukoharjo. This research belongs to qualitative. The data is the results of observation, interview and documentation. The sources of data are students and lecturers of translation of English department, Faculty of Teacher Training and Education, University of Veteran Bangun Nusantara Sukoharjo. The method of data collections are interview, observation and documentation. For the instrument, the researcher becomes the key instrument and supported by interview guide, check list and some supported documents. To check the data validity, the researcher used methodology triangulation. For the method of data analysis, the researcher used a model of Miles and Huberman.

After having analysis, it can be concluded that teaching translation by using comment exercise can make students become enthusiasm and well-motivated. It can be shown from the response of the students when they practised implementing this method.

Key Words : translation, comment exercise
