

**ENGLISH ORAL PRESENTATION PADA MATA KULIAH SPEAKING BAGI MAHASISWA PENDIDIKAN BAHASA INGGRIS UNIVERSITAS VETERAN BANGUN NUSANTARA SUKOHARJO**

**Arin Arianti**

*Abstract*

*This strategy is aimed to improve the knowledge of scientific presentation in English and also to train the skill of English Oral Presentation in Speaking class for second semester students of English Department in Veteran Bangun Nusantara University of Sukoharjo. It is applied by active learning in teaching learning process in which each student must be active participant and creative in each activity so the students are able to develop their ability in English especially for doing presentation in learning. In fact, it is not effective toward the content of presentation because it is not systematic presentation. The approach method that is used to overcome the problems is the application of English Oral Presentation. The second semester students is the subject of this activity. Pretest and posttest are used to know the improvement of students' knowledge about English Oral Presentation. The result of English Oral Presentation for second semester students at Bangun Nusantara University of Sukoharjo shows that all students get the improvement for their knowledge of English Oral Presentation up to 40%. Moreover, the ability to practice English Oral Presentation get good category for the average 4,3.*
